

# Better patient outcomes start with data

**Whether you're running hospitals, clinics, or research labs, your future success depends on how well you manage patient data.**

Cyberattacks costs Healthcare more than any other industry.

A typical breach cost \$9.4 million in 2021, an increase of \$2 million over the previous year.\*

**Here's how to become resilient to attacks and drop the cost of storage—all while delivering exceptional healthcare experiences.**

## Take these 3 steps

**Be prepared for your turn**

You take care of the patients health. We'll take care of their data.

**20/20**
